1.4 Matters Arising from 3rd Feb minutes:

Playcentre ownership: Building and land owned by MDC (although not on MDCs asset register). Historically Playcentre has maintained it and paid for compliance etc. No formal lease is in place. Discussion was had around what this means for painting the Playcentre. Carl to investigate further.	The Playcentre building is on the MDC Asset Register although no formal lease in place. MDC will cover external stuff (as with the Hall) so can keep seeking funding for painting the outside of it.
Rachel to email Maureen a copy of the two CET letters that have been received since the initial grant funding was approved as the figures don't line up. Rachel Rachel to transfer CET funding from General Account to Hall Refurb Account. Rachel	Rachel and Maureen have sorted this out. Differing amount came from needing to requote for slightly smaller heaters so the cost was reduced.
Looking at an alternative fencer option in the hope this can be done sooner (Rachel)	Done – Carl provided the name of an alternative fencer (Bryce McKinley who is a sub-contractor to Dave Oldfield who does work for MDC already). They have submitted a quote and this has been accepted by John Jones (MDC).
Rachel to see if Jeff can mow a strip around the perimeter when he mows the area to be fenced.	This has been done.
Items to be discussed next meeting as ran out of time – Paint sample ideas for under serveries and in toilets.	To be discussed in 4.2 Hall.
Janine H to follow up re: Cenotaph lights finish date.	Email received from Carl Johnstone/Grant Stevenson. Will be completed by end of Feb. This hasn't been done so will need to be followed up again. (Rachel)
Richie to follow up with slumping transaction number progress (#53240).	This has been registered as being completed however it still needs attention so Richie has resubmitted it again. Transaction number #57016.
Rachel to log job for graffitied signs.	The signs were cleaned up before a job was logged. Thank you MDC.
Rachel to touch base with Hank re: timing of Auction.	Done (see Auction note later on).
Rachel to put note on FB and email to see if there is any further interest for a particular cheese to be made. Anyone who is interested is to contact Jeanette.	Yes have had 3 more people register interest.

3.0 COUNCIL REPORT

Consultation for 2020/21 Annual Plan – Decision has been made not to go out for consultation as there are no changes to the original LTP (Long Term Plan).

The work on the next LTP is being started earlier than usual. We need to submit for things to go into the draft. The finance review is to kick off first (rates rises) and then big capital expenditure items are considered (essentials – infrastructure) and then nice to dos (community facilities).

Rural Zoning, Lifestyle Subdivisions and village zoning District plan review pre-draft input is happening now. This is a major review so please put in your thoughts, which will feed into the establishment of a draft proposal that will then go out for consultation.

Actions required from Council report:

HCDG to put time aside to consider feedback into Rural Zoning, Lifestyle Subdivisions and village zoning District plan and also the next LTP.

3.1 Special presentation by MDC's Principal Policy Planner Matthew Mackay: Discussing the upcoming District Plan review around Rural Zoning and Lifestyle Subdivisions and getting some early feedback on the question "How do we protect our productive rural soils and also provide for lifestyle subdivisions to keep our villages vibrant and allow for varied living options for our residents?".

- Currently surrounding each rural village, including Halcombe, is a 'nodal zone' (basically a 1km radius circle around the village centre – see blue line on the attached map). Within this nodal zone land can be subdivided down to 5,000 sqm sections.
- Outside the nodal zone (rural zone), where there are 'entitlements*', land can be subdivided down to 8,000sqm. * Entitlements were allocated to larger rural blocks back in 1998.
- MDC are reviewing whether the current zoning areas and rules associated with them are still appropriate and want to hear from the community before they start a draft proposal.
- In devising a draft proposal MDC also needs to consider rules outlined by Central Government, Regional Government and the likes of Kiwi Rail.
- The community might like to consider some of the following (this is by no means an exhaustive list and we encourage all our community to put forward any thoughts they have on rural, lifestyle and village zones/developments etc...):
 - Is the nodal zone (the current 'lifestyle zone') the right thing, covering the right area etc...?
 - Does the village zone need to be expanded/contracted?
 - Is it better to expand serviced residential (so more village zone) vs lifestyle?
 - Should the entitlements stay or be abolished (entitlements have enabled the 'ribbon development' that can be seen along Mt Stewart-Halcombe Road but also allow lifestyle blocks to be made further out than 1km from village centres. This can also allow farm succession to happen more easily with 'Mum & Dad' cutting off a block and build, whilst the 'children' take over the farm and live in the original house (or vice-versa)).
 - Should development be determined /linked to soil types?
- Discussion was had around if the village zone was to expand (or more serviced residential was wanted) then infrastructure and planning needing to work hand in hand to ensure the expansion of the services are built into budgets and connections are affordable. Examples were given about the high connections fees and lack of infrastructure (e.g. power) currently in the village zone, which is impacting the number of village sections that are currently being developed in Halcombe.
- Discussion was also had around Halcombe's soil types and it was established that they are not class 1 or 2 (highly productive soils that need to be protected for food production).
- The general consensus seemed to be that the nodal zone did make sense (concentrates development around a village centre. This allows better utilisation of community facilities and a more concentrated community)
- MDC and the HCDG encouraged everyone to forward their thoughts and feedback to Matthew.Mackay@mdc.govt.nz and/or halcombe.community@gmail.com The more pre-draft feedback they get, the more robust the draft plan will be.
- Once the draft plan comes out the community will have an opportunity to submit on whether they agree or disagree with the proposal.
- Please ignore any plans that were put out for consultation in 2015. This review starts with a clean slate.

Thankful for the damn having been cleaned out a year or 2 ago as it's the only source of water for the sheep in this dry season. Discussion was had re: a more reliable source of water, especially as it would be good to have some means for people to clean headstones and hands (as per Maori custom). Options included: <ul style="list-style-type: none"> - 25,000 litre tank offered to be donated by Adam Wilson. Water source would need to be found (nearest link to water scheme? Need to let Adam Wilson know if we would like the 25,000 litre tank. Paul Hughes/Jeff Lane to speak to neighbours/water scheme about water source.
